

TranzCom

Free solution for schools and educational institutions to combat COVID-19

19 March 2020 - Now that many educational institutions are temporarily closed, there is a great need for simple solutions that allow teachers, management, pupils and parents to collaborate efficiently and remotely. Such a solution would need to support video communication, virtual meeting rooms or classrooms, sending messages (chat), handing out and following tasks, etc... in a smooth way.

This is where **TranzCom** Telecom, together with AVAYA, are helping making a difference in the lives of those affected by the coronavirus outbreak. Avaya offers free licenses of "Business" version of Avaya IX Spaces to educational institutions that can be used for free until August 31, 2020.

This secure solution supports video and audio meetings of up to 200 participants, chat messages, file sharing and much more! If an educational institution is interested in receiving free Avaya Spaces licenses, it is sufficient to fill in the data on this international registration web page: : <https://news.avaya.com/cp-spaces-coronavirus-response-reg>

TranzCom Telecom is a partner of the program to provide free support to educational institutions.
